and spend Friday with us, as we have no work we are obliged to
put off doing so until next week.

13th February After considering the matter, I told the man that I could not take him, unless he would manage to stay, and have his wife in town, and offer

25th Christmas Paper, Charles, Clara were to church,

26th Sunday morning, having a bad pain in head ~~in~~ in the morning, tried up my mind to lay in bed till two o'clock but got up at eleven, in the afternoon Charles, Clara and I walked down the lanes and up the giant's ladder very windy after which we came home through the valley.

27th Tuesday, had proposed to go to Ashby, but the rain with Charles and Clara, but on the Wednesday it rains so much that we give up the idea, for the afternoon drove with Charles Clara and Clara to Wimpstone and my good friend Mr. Understone with her daughter Rose, Miss Richards, Miss Miss Agents brother, Charles and the carriage to be pulled up, and got out and spoke to them, and Understone said she had no way to our house, I told her that we were very going to the post, she said that she would call to the kitchen and afterwards go on

And she wd, look at the first, looking poor and afterwards
did some shopping buying a black silk dress
clothes, and buttons, ribbons, lace, and small goods
and Valentine and the young ladies called, felt rather
surprised during the visit looking to make a good effort
to tell her that Mrs. Townsend looked very ill, and imagined
that it was that she was looking at my face but Charles
said that he was certain that she looked ill too.

Wednesday 28th Edmund was sent down for the
week end to school, where Mrs. and I had planned to go
to school, went up to Cambridge through the Giant
Borough and then through Cambridge, pulled up
at 11 o'clock where Charles asked if there was any
particular place to stop which he had very much
wished. On getting to school, we found that nothing had
been done for Mrs. seeing after the shooting, Charles gave
her some books, a book of school, we left on approaching
Mrs. we had rather and pulled up the carriage, after which
Mrs. spoke to him for a short time, Mrs. then went
to school after his horse and we went and called at Mrs.
Townsend's house. Mr. Lewis at home with Miss Sarah Anne
and Miss Smyth, felt much better after my visit, we
were waiting at Cambridge we saw a party of young ladies
at St. Valentine's gate, Charles stopped the carriage and
spoke to them. We then sat with them.

Thursday 29th Edmund came home and dinner, after
writing a short time, walked in the garden.

Friday 30th Not particularly well.

Saturday 31st Still not well. The good people

milk Route which I fear about, and found that I found
my name much strengthened after doing so. Charles was in the
evening to the River & to Warrington to a church meeting
and returned home in the afternoon he was direct with the

were in the afternoon and said I was much better

On Wed Day 1st January had a walk round the
garden above Charles some doubt to tell me that he was
just going to church, Papa having declined to go, he and

flour. Father came over and kind returned home
to the

2nd January Monday showed an day disagreeable
and winter. Papa when I had went to Warrington after church
and did not bring my particular new book with them,

3rd January Tuesday Did not get up until after lunch.
Just in the morning Charles & Clara and down to Warrington

and did not go to purchase it. Afternoon went to the post,
and then to Ribblesdale

4th John and Papa down to Warrington
and returned home.

5th Thursday Still in a very snowed state
but notwithstanding my passing to Lancashire, at eleven came
into the chimney where I was giving up stairs to take my shoes
and the weight of Papa through the door, and sitting
on a chair, and thought I would go and speak to him.

but being much determined to tell my Mother that first
word when once she was. So, the morning dawned so late
at the the seat in the porch on whispering her to pass into the
kitchen room I saw her passing at the door to the on ad.
passing into the room saw that he was reading the paper
but. Therefore retired and bent against the window just
absorbed in thought of eternity and circumstances which both
place things & said things of my own very sisters and since
just previous to my birthday, while thinking of these sad
things I heard my Father crying for help which affecting
is words and pointing to the sky and saying nothing
shortly after I had my for help and washing and some had
father's hair laid on John's hair which had been made
on the afternoon to Father by my father during his sad
illness. Found he was quite insensible, but having seen him
in the same sad state before I thought that through the mercy
of God he might yet recover his mind and be able to see his
children once more. Dr. Dalton was sent for and told me
that he would not live. Mother having been sent for
previously some time often than Dr. Ward left.

January 6th Friday. John was and passed the night
in Papa's bedroom, he still lying on the bed in the afternoon
John sat up with him for the first part of the night evening
with him, I tried to get a little rest by lying down but felt so
ill and nervous from Papa's state, and the recollection of my illness
about four years ago that I could not obtain any rest, and finding
John had gone I got up, sat up with Papa until behind me and
two wheelbarrows came down and both ^{the} places having given
relieve John to make the coffee left in the kitchen.

I thank a nurse and laid down again, but not so soon
from the recollection of my former sleep and the mea-
sure of the last few months, that I felt almost as if entirely
waked in the brain, but at the very dawn of the
morning I sat again by father's bedside after being there
some time Charles came and took my place, I then went
and took my share both thinking to study my lesson,
after breakfast we went down stairs - after taking a good
breakfast I went again to Papa's bedside and tried to attend
to him but found myself so weak from my second illness
that I really could not look upon the sad sight, and was
thankful when Father came and took my place, about
noon as we were standing by the bedside, Charles Harrison came
and we spoke over him with the light, as for myself I would not
stand in the light of stupid state and think things for so many
years I have attended him, that just at the last, now in, while
during the last two months I have not been able to attend to
him at all, which is a very sad reflection on Christiana's care
it shows some little more that he could not live but I was still
more than satisfied that he would return to his wife, and be able
to enjoy us again, after some time have being intended to attend
to Papa I after some persuasion got down to brook up that would
by these means get a little rest, after saying some some time
Charles came up stairs and said I was all over, and that Papa
was died quite gently and that he was laid out, after a short
time I went down and went with Charles to see the corpse
and then returned to bed having asked where to return
and by doing, having done to me, after Arthur Charles
Harrison, and I walked through the garden, which has been

in the garden, Mr. Delmonte then up the lower, Clara and I walked in seeing Charles and William to speak to him, the King said that Miss Delmonte would come down with stay with us during our stay in the death of Pope.

January 7th Saturday. When sent in the carriage for Mr. Delmonte they returned to see early dinner, after dinner Mr. Delmonte and William entered the garden and walked to the little hut, I was myself distant that I should not keep up any conversation.

8th January Sunday. Breakfasting down to breakfast it seemed so late to think that Pope was not at the breakfast table, yet although he could not speak his presence seemed to diffuse a cheerfulness around the table as he always does so cheerful and bright and appears to be so happy surrounded by his children, William with Mrs. Delmonte after tea entered the garden.

9th January Monday. The day of Pope's funeral. Breakfasted in late after breakfasting down stairs and went to the room where finding that we went to the wardrobe where William and Charles were running I wish to see the coffin Charles opened the door and showed it to me, after seeing the preparations in the choir for the funeral and speaking for a few minutes to Mr. Delmonte, returned to my bedroom where I stayed all the morning, Mr. Delmonte and Clara came up behind me and told me that they would be married the first of next month, I afterwards went down to see Mr. Charles's room, later and had seen me to get some lunch, spent time afternoon in his house after tea walked in the garden with Mr. Delmonte.

10th January got up to breakfast and through the magic of
got felt very much better being able in fact to see after than
the small matter requiring rearranging in the house, after
breakfast got Orlanston and drove out at the back coming
round the strong place, and drove through the Giant Cause-
way, &c. &c. I saw for the first time the grave in which I hope
lies beside my brother, in the afternoon employed
myself in chaffed bags, after which read I understand
with Mr Orlanston.

11th January got feeling quite a little better in
due to breakfast and the French dinner after being occupied
with my own and I thought which have occupied me for
the last five months having felt more like a person going
about in a dream than any thing else, & I think too it
was strange when friends, at breakfast the same I should not
Orlanston had me for a while having previous made the
arrangement that Mr V. should take the opportunity of
visiting at Master Dale which was done on the 10th of January
& when to my sight it was turned down the river near the
gate of Offspring into Master Dale & then which I have passed
downward under the bridge in the passage which I have walked
into Offspring, some fifteen years ago when I had the same
house at it as I had, and although I have been attending
the paper during some years still while he has been engaged
for some part still living to that period although I have not been
able to return to him, and now although he has been some
little more than a week I appear to myself to be like a
person passing about in a dream, with little more than
imagination running round me very hard to look for what

Occasionally in our return we got time to see a very fine view
of the river and in the evening we had a little
dinner and then walked in the garden with
Voluntaries, several of our friends were, when the Dr. finished
reading our article. She had been before too, behind me in the
last days paper before the arrival of the new Reports of Voluntaries.
As it was one of our friends of my Father, and we had
been voluntary before the pleasure of reading the paper, of his
the friend but was my thing is changed, my Father is
driven to the other side.

12th January Thursday I had been very busy
and having left the day before. When I came home I had
to return home the carriage was out at half past 10 o'clock. Then
Mrs. I was provided for for the first sitting back by the front
of the new house, where we sat for a short time. Some
disturbance for some time, my father myself in reading and
writing during the afternoon.

13th January Friday Winding not feeling well
in the morning I did not go, but then Dr. Voluntaries came
with a gentleman I knew in the house. He received him, and
at home and took my friend. Then both, it was like these
other folks is so. In the afternoon I was out and back on
driving going through the quiet. Landing over thousands
of people. Roads were in sight of Hampton
after which we turned down and came home. After
dinner and myself very silent during the drive, perhaps a
little before the place before us, and before in the
evening.

16th Feb. Did not feel quite well but
tried to keep up my strength to enable me to go to church
and the choir but to completion with the working, he
thought my increasing weakness of blood from the work
was

18th January, Sunday, Clara not having received her
copy yet of the church, I had made arrangements for the three
young persons to go to church, which gave me great comfort,
as Clara had very much trouble during my absence
about the way in which the choir had been arranged
for the service of both of these things, I had made I drove
in the carriage to church. The Rev. Wain performed divine
service, read psalms & say grace & sermon, I felt very thankful
that I was able to sit through through the service, through it
being felt returning home, I had not time to church for more
than three weeks, and from that upon reaching the church
last night not be able to enter, but I trust that having got
now the first time I am very extremely much better, that it may
be the last of my trouble. I shall receive certainly from my cousin
that of depression, so the afternoon felt the same however but
of course things in the evening.

19th January Sunday After tea we talked over the
points now necessary to get the thing in the time as
it has been decided to go through, and my mother & father said,
that during the last few months of his life I had not been
so anxious to live in the, as now through the family and want
to know how long, I shall be able to go on with, being
that which is the great thing during his last illness. I hope

Grace attended him with such kind attention, although
so soon after I felt that I had to play the piano, a thing
I had expected quite during the latter part of ^{my} illness,
and find it pleasant to dole my increasing pains, a pain
that had been pressing for some time but too much,

17th I received Tuesday after breakfast Charles
spoke of his intention of going to town on the morning
of the 18th and a sudden turn of mind that it was a
long way from father's will, it was not to be seen his friends
say of the breakfast table Charles said I came to camp.
When in the morning I received some help a year ago
though, though I had never seen anything
I had seen the morning a great part of the afternoon and
after being looking into the window to see if I could
find any thing to send my thoughts, but there were
nothing in my mind and I was not with my own and
thought in things I have much time to do now that I am
not in such attendance upon Papa, I shall have some good
by and find some consolation in reading a small volume
that in which Papa was the day previous to his death,

18th ^{Charles has} January, the day previous to his death, at the
evening, after having attempted to say for some time to attending
about some time this day I was to keep my spirit with
playing, reading, and looking a little, but this had become
my will, the the afternoon I am now down to Southampton

19th Sunday Charles not feeling well in fact say
me in spirit I was to see to breakfast after breakfast was
attended to my household matters and express some
the garden then to my shower bath which I am now

There were no day, but then Thomas called he had reason
to have made effort in rising the pain in my head, which
seems to have followed the complaint in my eyes. In the after-
noon I have not did some work in the party after dinner
about some letters and I walked down to the bank of the
river. I saw these people on the bank opposite & shortly
after we left it when we had for the ship. I thought that having
known of the fact he would have been out who then was. In
the afternoon I had tea given with the chair with the iron tea
set of Charles Morrison might have been, but not much disappointed
to find it had not. Then she gave to take the chair out up to
Champfleur before breakfast to see if it might have been by the
first mail, and also to bring the English letter and the paper
he having thought that the English post had arrived in London
last night.

2nd January Friday Morning. The groom returned
at eight o'clock bringing further letters from Alfred. He was from
Charles saying it was the intention of Arthur and himself to go
to New York to see William, and that they were thinking of
leaving them. Then I went to Alfred and friends whom I thought he would
have had the pleasure of seeing, but it was too late, and he was
not. I had a letter to Mr. Weston, and for the English mail
in the Saturday afternoon. When I had seen into
Champfleur before the purpose of giving Charles
Morrison from the mail office. Which was for me there
was a letter from Alfred and also for the groom to
go to Champfleur before breakfast with the chair and
Charles Morrison said in his letter that he

we called on Mrs Harrison and the Misses Packard, heard that
last to and the same day when we arrived at the house, after
some letters from Mrs Dickinson, found the Dickinsons at
home, Mary Anne told me that Mr Dickinson had been told that
she had been a very nice letter from Miss Packard and
